Teaching Methodology

Lecture and Computer Lab Sessions

Grading

Projects.....	80%
Mid-Term.....	10%
Final.....	10%

Lab Assignments

There will be approximately 5 projects for the semester. Projects may be submitted using email, Dropbox, Google Drive, or similar file sharing services.

Projects submitted after the due date will be marked with a reduction in score per day. Late projects will not be accepted after 1 week of the due date.

Semester Topics

1. VB.NET syntax and general programming practices
2. VB.NET IDE navigation, control objects/presentation design
3. Object Oriented Programming (OOP)
4. Data analysis
5. Information security
6. GDI+ for graphics programming
7. ADO/Database

Statement on Academic Integrity:

Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at: <http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>

Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at **dos@njit.edu**

Service Desk Support

If you encounter technical issues, you may contact the NJIT service desk.
