This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Course Outline
Physics 102 Sect. 002
Spring 2019

Professor N.M. Ravindra (Ravi)
Tiernan Hall – 414
Tel. (973).596.3278/6453 – Office/Lab
Email: nmravindra@gmail.com

Lecture and recitation for Section 002:

Tuesdays 2.30 to 3.50 PM; Thursdays 2.30 to 3.50 PM
KUPF 210

Office hours: 2 to 4 pm on Fridays, or by appointment; During his presence in the lab, Prof. Ravi has his lab doors open all the time.

Pre- and Co-requisite Courses

Prerequisite: Satisfactory completion of two high school mathematics courses and two high school science courses.

Laboratory - Physics 102A

The laboratory component of the course is Phys 102A. This laboratory course may be optional for your major; confirm it with your department. If it is required for your major, it must be taken concurrently unless you have previously taken and passed Phys 102A. The grading for the laboratory is separate from the course/recitation (Phys 102) and the grades are given by the laboratory instructors. Latest edition of **Lab manual “Physics 102A Laboratory Manual”** can be purchased from NJIT Bookstore.

YOU MUST REGISTER FOR THE LECTURE/RECITATION (Phys 102) AND THE LABORATORY COURSE (Phys 102A) SEPARATELY. WITHDRAWAL FROM ANY OF THESE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM ALL Phys 102 COURSES.

Course Materials

Textbook:

Physics - Principles with Applications, 7th ed. by Giancoli (Publisher: Pearson)

Mastering Physics Online Homework System:

Be sure that your textbook is sold bundled with a Mastering Physics student access code card. You can also buy the student access code card separately either from NJIT bookstore or online. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system. Instruction can be found on the student access code card. **To enroll for this section of the course, use course ID “MPNUGGEHALLI09086”.**

Email:

NJIT email will be routinely used for announcements and to distribute material. Be sure check the NJIT email every day.

Attendance

Attendance at lectures and recitations is mandatory; it may constitute a portion of the final grade. **Missing more than three lectures will be reported to the Dean of Freshman Studies throughout the semester and can result in failing the course.** Students with absences need to discuss their extenuating circumstances for missing the classes with the Dean.

Exams

There will be three Common Exams and a Final Exam during the term. The exam schedule is:

Common Exam 1: Wednesday, February 20, 4:15 – 5:45 pm

Common Exam 2: Wednesday, March 27, 4:15 – 5:45 pm

Common Exam 3: Wednesday, May 1, 4:15 – 5:45 pm

Final Exam: To be announced

There will be no makeup exams.

Grading

Final grades will be based on a composite score for the term's work that includes three common exams, the final exam, homework score, written lecture quiz, and class participation. The approximate weights we expect to use in calculating the composite score are:

- 48 % for three Common Exams (16% for each)
- 33 % for Final Exam
- 12 % for Homework grade
- 7 % Algebra Quiz + Lecture Quizzes + Class participation

Extra credit may be given for active class participation, etc. Negative credit may be applied for lateness, creating noise, or otherwise interfering with class work.

The cutoff percentages for various letter grades will be in the range of 84.0% for A, 76.0 % for B+, 68.0% for B, 60.0% for C+, 52.0% for C, 44.0% for D, F below 44.0 %.

C or better grade is required to take further physics courses. If you get D in Physics 102, you cannot take the next level physics course.

Reading Assignments

The text readings are listed below. You should read the assigned sections of the text before the lecture covering that material.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering

Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above.

Honor Code Violations or Disruptive Behavior

NJIT has a zero-tolerance policy for cheating of any kind and for student behavior that disrupts learning by others. Incidents will be immediately reported to the Dean of Students. The penalties for violations range from a minimum of failure in the course with disciplinary probation up to expulsion from NJIT. Avoid situations where your own behavior could be misinterpreted, even if it is honorable. Students are required to agree to the NJIT Honor Code on each exam. Turn off all cellular phones, wireless devices, computers, and messaging devices of all kinds during exams. Please do not create noise in class that interferes with the work of students or instructors.

Help

Students are encouraged to meet with their instructor during their office hours. Physics Department also offers tutoring as posted on <http://physics.njit.edu/>, for which students do not need to sign up but just can go to open sessions provided in the schedule.

Learning Outcomes:

For this course, you can expect to be assessed on the following learning outcomes:

1. Recall the definitions and relationships involving position, velocity, speed, acceleration, vectors, Newton's Laws, circular motion, free-body diagrams, friction, work, energy, linear and angular momentum, torque, angular velocity and acceleration, and gravitation.
2. Apply the equations governing 1-D and 2-D constant acceleration to mechanical systems for various initial conditions. Calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
3. Comprehend the meaning of the equations governing net force and acceleration (Newton's Laws), and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship. Understand the extension of these equations to rotational motion, and gravitation.
4. Generalize the concepts underlying the equations of motion, such as work, kinetic and potential energy, conservation of energy, and equilibrium.
5. Comprehend the meaning of equations governing momentum, impulse, and collisions. Apply the equations governing momentum, impulse, and collisions mechanical systems for various initial conditions. Understand under what conditions momentum is conserved and how to use this relation to calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
6. Understand the extension of linear motion equations to rotational motion. Comprehend the meaning of the equations governing rotational motion and acceleration, and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship.

IMPORTANT UPCOMING DATE:

Friday, February 1, 2019 is the last day for students to add/drop a class.

TUTORING

Tutoring will begin on Tuesday, January 29, Monday-Thursday from 10am to 6pm and Friday from 10am to 2:30pm in the Physics Tutoring Center located at CKB G12.

Spring 2019 tutoring schedule will be posted at:

<https://physics.njit.edu/physics-tutoring-sign-sheet>

<https://www.njit.edu/registrar/spring-2019-academic-calendar/>

Spring 2019 Academic Calendar

January	21	Monday	Martin Luther King, Jr. Day
January	22	Tuesday	First Day of Classes
January	26	Saturday	Saturday Classes Begin
February	1	Friday	Last Day to Add/Drop a Class
February	1	Friday	Last Day for 100% Refund, Full or Partial Withdrawal
February	2	Saturday	W Grades Posted for Course Withdrawal
February	4	Monday	Last Day for 90% Refund, Full or Partial Withdrawal - no refund for partial withdrawal after this date
February	18	Monday	Last Day for 50% Refund, Full Withdrawal
March	11	Monday	Last Day for 25% Refund, Full Withdrawal
March	17	Sunday	Spring Recess Begins - No Classes Scheduled - University Open
March	24	Sunday	Spring Recess Ends

April	8	Monday	Last Day to Withdraw
April	19	Friday	Good Friday - No Classes Scheduled - University Closed
May	7	Tuesday	Friday Classes Meet
May	7	Tuesday	Last Day of Classes
May	8	Wednesday	Reading Day 1
May	9	Thursday	Reading Day 2
May	10	Friday	Final Exams Begin
May	16	Thursday	Final Exams End
May	18	Saturday	Final Grades Due
TBA			Commencement

2019 Spring Lecture/Exam Schedule for Phys 102-002

Dates	Lecture Topics	Text Reading
1/22 T	Math Review	Appendix A-4
1/24 R, 1/29 T	Math Review Introduction Measurement and Units	Appendix A-4, Ch 1, Sec 1-6
1/31 R, 2/5 T	Motion in One Dimension	Ch 2, Sec 1-8
2/7 R, 2/12 T, 2/14 R	Vectors and Two-Dimensional Motion	Ch 3, Sec 1-6
2/19 T, 2/21 R	The Laws of Motion - Forces and Newton's Laws	Ch 4, Sec 1-5
2/20 W	Common Exam 1 (4:15-5:45pm)	Algebra Ch. 1 - Ch. 3.4
2/26 T, 2/28 R	The Laws of Motion - Applications of Newton's Laws	Ch 4, Sec 6-8
3/5 T	Circular motion	Ch. 5, Sec. 1-4
3/7 R, 3/12 T	Energy -Work, Kinetic Energy, Work-Energy Theorem	Ch. 6, Sec. 1, 3
3/14 R, 3/26 T	Energy -Potential Energy, Mechanical Energy, Energy conservation, Power	Ch. 6, Sec. 4-7, 9, 10
3/27 W	Common Exam 2 (4:15-5:45pm)	Ch. 3.5 - 3.6, Ch. 4, Ch. 5.1-5.4, Ch. 6.1, 6.3
3/28 R, 4/2 T	Momentum and Collisions -Momentum, Impulse, Conservation of Momentum	Ch. 7, Sec. 1-3
4/4 R	Momentum and Collisions -Collisions	Ch 7, Sec. 4-8, 10
4/9 T, 4/11 R	Rotational Motion, Rotational Dynamics I	Ch 8, Sec 1-3
4/16 T, 4/18 R, 4/23 T	Rotational dynamics II	Ch.8, Sec. 4-8
4/25 R, 4/30 T	Static Equilibrium	Ch. 9, Sec. 1-4
5/1 W	Common Exam 3 (4:15-5:45pm)	Ch. 6.4-6.10, Ch. 7, Ch. 8
5/2 R	The Law of Gravity	Ch 5, Sec. 5-8
Date to be announced	Final Exam	Everything learned in class

*** Professor will discuss changes to the syllabus during class if they arise.**
