**ATTENDANCE**

Attendance is mandatory for this class and will be monitored through short in-class quizzes online. Attendance of 85% of lectures earns full attendance credit for the course. You will need to have a computer or a cell phone in order to complete these quizzes online. If you expect to miss a class for a valid reason, please email Dr. Konsolaki and provide documentation ([mary.konsolaki@njit.edu](mailto:mary.konsolaki@njit.edu))

**COURSE DESCRIPTION:** This course surveys the basic concepts of Genetics. We plan to start the course with a detailed examination of classical genetics experiments beginning with those of Mendel, followed by a study of DNA structure and manipulation. Further lectures in the course will focus on some of the details of molecular genetics, developmental genetics, and population genetics.

**PREREQUISITES:**

Foundations of Biology: Cell and Molecular Bio, BIOL201 and BIOL202 with grade C or better.

**OBJECTIVES:** To provide the student with: (1) knowledge of terms, concepts and theories of Genetics (2) the ability to integrate the material from multiple sources and research (3) improved critical thinking skills and the opportunity to apply genetic concepts in everyday biology-related applications

**INSTRUCTIONAL MATERIALS:** Genetics Essentials, Fourth Edition (2018) Benjamin A. Pierce. Students can purchase a 6-month subscription to the E-book, ISBN: 9781319189051 (most affordable option). Below is the link for the different options:

<https://store.macmillanlearning.com/us/product/Genetics-Essentials/p/1319107222?searchText=genetics%26%23x20%3bessentials>

Some additional reading may be occasionally assigned from online resources (free text) such as NCBI <https://www.ncbi.nlm.nih.gov/guide/literature/>

**SUPPLEMENTAL MATERIALS:** Any additional materials required for class would either be provided through Canvas (UCID required), or via web link.

**CODE OF STUDENT CONDUCT:** Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational

investment by knowing and following the academic code of integrity policy that is found at: <http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>.

Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at [dos@njit.edu](mailto:dos@njit.edu)

**REASONABLE ACCOMMODATION:** If you have a special need that may require an accommodation or assistance, please inform us of that fact as soon as possible and no later than the end of the second class meeting. Students with disabilities who require accommodations must contact Dr. Phyllis Bolling, Center for Counseling and Psychological Services (C-CAPS), Campbell Hall, (entry level), room 205, (973) 596-3420
