This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Chemistry and Environmental Science Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.
E-mail: michael.p.bonchonsky@njit.edu; also at mickbon@aol.com
Office: Tiernan 365
Office Hours: M/Tr 11:30-1:30 and by appt

**NJIT Academic Integrity Code:** All Students should be aware that the Department of Chemistry & Environmental Science takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

### COURSE INFORMATION

I. Course Description and Objectives Summary:

An introductory course to the interdisciplinary study of the complex interactions that occur among and within environmental systems: air, water, and terrestrial environs. The course includes an emphasis on anthropocentric effects on these environmental systems. It is provided as a part of a curriculum in applied environmental science and as such emphasizes problem identification and engineered solutions. The course serves as an introduction to further advanced study specializing in environmental science and engineering.

Number of Credits: 3 Cr

Prerequisites: None

### Course-Section and Instructors

<table>

<tr>
<td>Botkin and Keller</td>
<td>Wiley</td>
</tr>
</tbody>
</table>
University-wide Withdrawal Date: The last day to withdraw is as shown on the NJIT academic calendar currently listed as Monday, April 6, 2020. It will be strictly enforced.

Learning Outcomes:
Student learners will:

- Learn core concepts and methods from ecological and physical sciences and their application in environmental problem solving.
- Understand the transboundary character of environmental problems and ways of addressing them, including interactions across local to global scales.
- Analyze basic public works and private systems that provide potable water, treat wastewater and manage air quality.
- Demonstrate their ability to communicate effectively in written and oral form, demonstrating the ability to create an appropriate annotated bibliography and the ability to use effective presentation skills.
- Develop a sense of community responsibility by becoming aware of scientific issues in the larger social context.
- Demonstrate interpretative skills including the ability to analyze data, assess reliability, interpret results and draw reasonable conclusions.
- Become well-grounded in laws and theories of basic scientific disciplines by demonstrating and applying the scientific method.
- Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world.
- Develop and incorporate standards of professional behavior that include rules of ethics and etiquette.

POLICIES
All EVSC students must familiarize themselves with, and adhere to, all official university-wide student policies. EVSC takes these policies very seriously and enforces them strictly.

Grading Policy: The final score in this course will be determined as follows:

<table>
<thead>
<tr>
<th>Essay Score</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Essays</td>
<td>20%</td>
</tr>
<tr>
<td>Quizzes</td>
<td>20%</td>
</tr>
<tr>
<td>Participation</td>
<td>5%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>25%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>30%</td>
</tr>
</tbody>
</table>

The final course grade will be determined as follows:

<table>
<thead>
<tr>
<th>Final Grade</th>
<th>Overall Academic Performance (100%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Above 90</td>
</tr>
<tr>
<td>B+</td>
<td>85-89</td>
</tr>
<tr>
<td>B</td>
<td>80-84</td>
</tr>
<tr>
<td>C+</td>
<td>75-79</td>
</tr>
<tr>
<td>C</td>
<td>70-74</td>
</tr>
<tr>
<td>D</td>
<td>60-69</td>
</tr>
<tr>
<td>F</td>
<td>Below 60</td>
</tr>
</tbody>
</table>
**Attendance Policy:** Attendance at classes will be recorded and is mandatory. Each class is a learning experience that cannot be replicated through simply “getting the notes.”

**Homework Policy:** Homework is an expectation of the course. The homework assignments set by the instructor are used in class discussions which comprise in part the determination of the score for “participation”.

**Exams:** There will be quizzes, a midterm exam held in class during the semester and one final exam. The following exam periods are tentative and therefore possibly subject to change (see moodle for any updates):

<table>
<thead>
<tr>
<th>Exam Type</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Midterm Exam</td>
<td>March</td>
</tr>
<tr>
<td>Quizzes</td>
<td>TBD on Canvas</td>
</tr>
<tr>
<td>Final Exam Period</td>
<td>May, see Registrar exam schedule</td>
</tr>
</tbody>
</table>

**Makeup Exam Policy:** There will normally be NO MAKE-UP QUIZZES OR EXAMS during the semester. In the event that a student has a legitimate reason for missing a quiz or exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor’s note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the CES Department Office/Instructor that the exam will be missed so that appropriate steps can be taken to make up the grade.

**Cellular Phones:** All cellular phones and other electronic devices must be switched off during all class times. Such devices must be stowed in bags during exams or quizzes.

**ADDITIONAL RESOURCES**

**Accommodation of Disabilities:** Office of Accessibility Resources and Services (formerly known as Disability Support Services) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director at the Office of Accessibility Resources and Services at 973-596-5417 or via email at lyles@njit.edu. The office is located in Fenster Hall Room 260. A Letter of Accommodation Eligibility from the Office of Accessibility Resources Services office authorizing your accommodations will be required.

For further information regarding self-identification, the submission of medical documentation and additional support services provided please visit the Accessibility Resources and Services (OARS) website at:

**Important Dates** (See: always check Spring 2020 Academic Calendar, Registrar)

---

**Course Outline**
Lecture topics, dates:

Week 1  Tr January 23  Introduction to Environmental Science…review of syllabus, assignments, selected readings; introduction to environmental science, relationship to traditional disciplines of study, and its applications in the real world today.

Week 2  Jan 27, 30  Energy in the Natural Environment

Energy and Cycles of Energy in Nature

Week 3  February 3, 6 Energy in the Anthro- Environment

Principles of energy
First and Second Laws of Thermodynamics
(Conservation of Energy and examples of Entropy, as found in environmental systems)
Sources and Forms of Energy Development
  Fossil Fuels
  Nuclear Fuels
Alternative Energy Development Patterns
  Advantages and Disadvantages of alternatives
Existing Energy Infrastructure
Energy for the future, renewable energy sources
  Energy Use in Industrial Societies
  Energy Consumption in the United States
  Comparative Energy Use Internationally
Nonrenewable Energy Sources
  Renewable Energy Sources

Week 4  February 10, 13  Water Quality

The water molecule
The hydrologic cycle
Quantity and Quality of Water Resources
Surface water, groundwater characteristics
Algal Nutrients and Eutrophication
Basic Examination of Water and Wastewater  Problem set

Week 5 February 17, 20 Water Pollution

Sources of Pollution
Parameters and Constituents
  Related measurements

Week 6  Feb 24, 27 Basic Water and Wastewater Treatment Systems

Biological Systems
Chemical Physical Systems
Health Impacts and concerns

Week 7 March 2, 7 Presentations, Problems

Week 8  March 9, 12 Review and Midterm

Week 9 Spring Break  March 15-22

Week 10 March 23, 26  Terrestrial and Groundwater Environment
Groundwater Hydrology  Contaminants, Transport
Land Resources and Conservation
Soils and their preservation
Minerals: reserves and consumption
Chemical and physical properties of soil
Soil Matrix Systems
Land Disposal of Solid Waste
Fate of Pollutants in Soil Matrix
Wetlands Impacts

Week 11 March 30, April 2,  Atmospheric Environment  Problem set
  Atmospheric Strata and Quality of Atmosphere
  Fate of Chemicals in the Atmosphere
  Indoor Air Pollution
  Global Warming, Greenhouse Effect
  Hydrocarbons and Photochemical Smog
  Industrial Air Pollution Control Systems

Week 12 April 6, 9 Hazardous Waste
  Identification of hazardous waste
  Resource Conservation and Recovery Act
  Hazardous waste management
  Treatment and Remediation

Week-13 April 13, 16  Industrial Ecology
  The Law of Conservation of Mass, the continuity equation
  Properties of matter
  Advantages of Circular Systems over Linear Systems
  Conducting a Mass Balance, non-reacting and reacting systems
  Applications to Polluting Circumstances

Week-14  April 20, 23  Sustainable Development  Chap 5
  Biological Systems, Major Biomes and Biodiversity
  Ecosystems
  Global Changes Trends
  “Tragedy of the Commons”/Environmental Impact Statements

Week-15  April 27, 30 complete student presentations and Review..last day of classes

(Tuesday May 5, only Friday classes meet)

Finals Week begins as scheduled starting by registrar exam schedule
