This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Mathematical Sciences Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact [digitalcommons@njit.edu](mailto:digitalcommons@njit.edu).

## MATH 480/545: Introductory Mathematical Analysis

### *Fall 2023 Course Syllabus*

**NJIT Academic Integrity Code:** All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

### COURSE INFORMATION

**Course Description:** Builds on principles taught in basic calculus courses. Topics discussed include continuity, differentiation, integration, and the limit process of sequences and series.

**Number of Credits:** 3

**Prerequisites:** **MATH 211** with a grade of C or better or **MATH 213** with a grade of C or better.

**Course-Section and Instructors:**

| Course-Section         | Instructor             |
|------------------------|------------------------|
| Math 480-001 / 545-001 | Professor D. Shirokoff |

**Office Hours for All Math Instructors:** [Fall 2023 Office Hours and Emails](#)

**Required Textbook:**

|                     |   |
|---------------------|---|
| Title               | <i>Introduction to Real Analysis</i>                              |
| Author              | W. Trench   |
| Edition             | Digital Version   |
| Publisher           | Digital Commons@Trinity   |
| ISBN #              | ---   |
| For Digital Version | SEARCH <i>trench introduction to real analysis</i> for a pdf file |

**University-wide Withdrawal Date:** The last day to withdraw with a **W** is **Monday, November 13, 2023**. It will be strictly enforced.

## COURSE GOALS

**Course Assessment:** Outcomes are assessed through weekly quizzes, four assignments, two midterm exams, and a comprehensive final exam.

## POLICIES

**DMS Course Policies:** All DMS students must familiarize themselves with, and adhere to, the [Department of Mathematical Sciences Course Policies](#), in addition to official [university-wide policies](#). DMS takes these policies very seriously and enforces them strictly.

**Grading Policy:** The final grade in this course will be determined as follows:

|                   |     |
|-------------------|-----|
|                   |     |
| Assignments       | 40% |
| Midterm Exams (2) | 30% |
| Final Exam        | 30% |

Your final letter grade will be based on the following tentative curve.

|    |          |   |         |
|----|----------|---|---------|
| A  | 90 - 100 | C | 70 - 75 |
| B+ | 86 - 89  | D | 60 - 69 |
| B  | 80 - 85  | F | 0 - 59  |
| C+ | 76 - 79  |   |         |

**Lectures:** Class lectures will take place in person and may be recorded. If circumstances prevent classes from occurring in person, class lectures will take place via Webex at the regularly scheduled time.

**Practice Problems:** Each week, practice problems will be posted on Canvas with a suggested completion date. These problems do NOT need to be handed in. However, completing these problems is necessary for succeeding in this class. Some of these problems may appear on quizzes, midterm exams, or the final exam.

**Quizzes:** A brief quiz will be given at the beginning of class each Thursday. Quiz problems will be based upon content taught in class during the previous week, and will be drawn from practice problems posted on Canvas. Solutions will be graded for correctness, completeness, and clarity. Missed quizzes CANNOT be made up. However, the lowest two (2) quiz scores will be dropped.

**Assignments:** Four (4) assignments will be given that require you to interact with and reflect upon the course content. Assignments will be posted on Canvas. Each assignment must be submitted as a single pdf file on Canvas before the beginning of class time on the due date. Late assignments will be penalized at a rate of ten (10) percentage points per day or portion thereof. These assignments must be completed individually. Any submitted assignments bearing substantial similarities to each other will be assigned a score of zero.

**Exams:** There will be two midterm exams, held during class time, and one comprehensive final exam.

|                   |                                 |
|-------------------|---------------------------------|
| Midterm Exam I    | October 12, 2023                |
| Midterm Exam II   | November 16, 2023               |
| Final Exam Period | December 17 - December 23, 2023 |

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the **Math Department's Examination Policy**. This policy will be strictly enforced.

**Makeup Exam Policy:** There will be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event an exam is not taken under rare circumstances where the student has a legitimate reason for missing the exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor's note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the Math Department Office/Instructor that the exam will be missed.

**Cellular Phones:** All cellular phones and other electronic devices must be switched off during all class times.

## ADDITIONAL RESOURCES

**Math Tutoring Center:** Located in the Central King Building, Lower Level, Rm. G11 (See: **Fall 2023 Hours**)

**Further Assistance:** For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department's webpage for **Instructor Office Hours and Emails**.

**Accommodation of Disabilities:** The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you need an accommodation due to a disability, please contact the Office of Accessibility Resources and Services at [oars@njit.edu](mailto:oars@njit.edu), or visit Kupfrian Hall 201 to discuss your specific needs. A Letter of Accommodation Eligibility from the office authorizing student accommodations is required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Office of Accessibility Resources and Services (OARS) website at:

<https://www.njit.edu/accessibility/>

**Important Dates** (See: **Fall 2023 Academic Calendar, Registrar**)

| Date               | Day     | Event                        |
|--------------------|---------|------------------------------|
| September 4, 2023  | Monday  | Labor Day                    |
| September 5, 2023  | Tuesday | First Day of Classes         |
| September 11, 2023 | Monday  | Last Day to Add/Drop Classes |
| November 13, 2023  | Monday  | Last Day to Withdraw         |
| November 21, 2023  | Tuesday | Thursday Classes Meet        |

|                                  |                       |                              |
|----------------------------------|-----------------------|------------------------------|
| November 22, 2023                | Wednesday             | Friday Classes Meet          |
| November 23 to November 26, 2023 | Thursday and Saturday | Thanksgiving Recess - Closed |
| December 13, 2023                | Wednesday             | Last Day of Classes          |
| December 14, 2023                | Thursday              | Reading Day 1                |
| December 15, 2023                | Friday                | Reading Day 2                |
| December 17 to December 23, 2023 | Sunday to Saturday    | Final Exam Period            |

## Course Outline

| Week | Dates           | Topic   |
|------|-----------------|---|
| 1    | 9/6 and 9/8     | 1.1: Intro. 1.2: Mathematical Induction                         |
| 2    | 9/13 and 9/15   | 1.3: Set Theory. 2.1: Limits                                    |
| 3    | 9/20 and 9/22   | 2.1: Limits. 2.2: Continuity                                    |
| 4    | 9/27 and 9/29   | 2.3: Differentiability and Mean Value Theorem.                  |
| 5    | 10/4 and 10/6   | 2.4: L'Hopital's Rule. 2.5: Taylor's Theorem                    |
| 6    | 10/11 and 10/13 | <b>REVIEW &amp; MIDTERM 1 (October 12)</b>                      |
| 7    | 10/18 and 10/20 | 3.1: Definition of the Integral                                 |
| 8    | 10/25 and 10/27 | 3.2: Existence of the Integral. 3.3: Properties of the Integral |
| 9    | 11/1 and 11/3   | 3.4: Improper Integrals. 4.1: Sequences                         |
| 10   | 11/8 and 11/10  | 4.1-4.2: Sequences.   |
| 11   | 11/15 and 11/17 | <b>REVIEW &amp; MIDTERM 2 (NOVEMBER 16)</b>                     |
| 12   | 11/22           | 4.3: Series. (No class 11/24)                                   |
| 13   | 11/29 and 12/1  | 4.3: Series 4.4: Sequences and Series of Functions.             |
| 14   | 12/6 and 12/8   | 4.5: Power Series.  |
| 15   | 12/13           | <b>REVIEW</b>   |
