Course Description: HUM 102 is an introduction to writing using both primary and secondary sources. While building on the skills you learned and practiced in HUM 101, HUM 102 asks you to develop research questions, find and cite sources, conduct your own primary research, and synthesize elements of research into coherent wholes. To do so successfully, you will be asked to understand and interpret sources and put them in conversation with each other, as well as correctly document and attribute them. Overall, the general purpose of this class is to set you up for research and writing success in your future courses, both inside and outside of your major.

Course Goals: During this course, you will:

1. Explore and refine research topics
2. Find, evaluate and choose sources effectively
3. Practice writing from primary and secondary research, developing different types of research projects that use fieldwork, library, and online research methods
4. Demonstrate knowledge of the conventions of bibliographic citation
5. Demonstrate an understanding of intellectual property, plagiarism, and the importance of distinguishing between source material and one's own work.
6. Draft, review, and revise multiple versions of a single writing project

Converged, Synchronous and Asynchronous Online Policies

Participation & Attendance (Synchronous & Asynchronous)

Converged sessions: Attendance will be voluntary and a survey will be conducted before the start of the semester to assess students’ interest in converged onsite attendance or online synchronous session attendance. **Synchronous Course.** Be present and participate. All activities require active participation. Missed sessions and lack of participation may impact the final grade, since most activities require a submission or post in Canvas. These earn points in the "participation" grading category. **Asynchronous Course.** Attendance and participation is evident in the contributions to the collaborative assignments, discussion boards, and assignment submissions throughout each week. *Students who expect to miss classes because of religious observance* can be excused from participation assignments the week of the religious observance if the student notifies me through email. Notification is required before the end of the second week of classes (**per university policy**). See the [NJIT attendance policy page](#) for more information regarding attendance

Assignment Submissions

All assignments are submitted through Canvas. Only **Word and PDF files** are accepted for uploads of typed documents. *Pages and other word processing program docs will earn a 0* if they do not open in Canvas. If a student is unable to upload a Word or PDF file, a link to an **open access** google doc is acceptable; **if a link to a google doc is password protected, the assignment is scored a 0.** Also, late submissions lose 10 points/percent daily.

Communication with the instructor: If you need to reach me, email Bruzzano@njit.edu or message me through Canvas messages (click "inbox" in the global Canvas menu to the far right of an open Canvas page). Remember to maintain an appropriate tone in all school-related correspondence and include a SUBJECT line, your course, and your name.

Synchronous Course Session Recordings

If a course session will be recorded, I'll ask for everyone's consent to do so. If a student has an accommodation requiring recordings, an electronic notice of accommodations must be sent through email during the first week of classes.

NJIT University Code of Academic Integrity

The New Jersey Institute of Technology is an institution dedicated to the pursuit of knowledge through teaching and research. We expect our graduates to assume positions of leadership within their professions and communities. Honesty in your academic work will develop into professional integrity. The NJIT Code of Academic Integrity embodies a spirit of mutual trust and intellectual honesty that is central to the very nature of the university and represents the highest possible expression of shared values among the members of the university community. All assignments submitted shall be considered "graded work" and all aspects of your coursework are covered by the [Code on Academic Integrity](#). All projects and homework assignments are to be completed individually unless otherwise specified.

Student Disabilities Services

The goal of Student Disability Services is to work in partnership with the faculty and the student to provide accommodations and supportive services to qualified students with disabilities. It is the responsibility of the person with a disability to identify himself/herself and request appropriate accommodations. Students currently attending NJIT or accepted to NJIT can accomplish this by scheduling an appointment with the Coordinator of Student Disability Services located in Kupfrian Hall 2nd floor, Room 201. Self-identification initiates the process for receiving accommodations. If you are a student with a documented disability, please contact [Student Disability Services](#) at 973-596-3420 for arranging accommodations for all of your classes.

Netiquette

Proper interactions within the Canvas site are expected from all members of this learning community. This includes written, spoken, and visual communications. Also, avoid writing in all capitals, which may happen accidentally at times, and be sure to proofread written text before posting to group pages since "tone" is critical when it comes to written communications and word choice will make the difference.

Technology Requirements & Skills

Technology requirements. for participating in this course, an internet-enabled device with a modern web browser (such as Google Chrome, Firefox, Edge, or Safari [which is the least preferred because of limitations it places on the use of Canvas conferences features]) is required. **Technology skills.** Reviewing the Course Overview module on the home page is recommended during the first week of classes to ensure basic course navigation skills are in place early in the semester.
