This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Chemistry and Environmental Science Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Chemistry:
Fall 2020 Course Syllabus

[NJIT Academic Integrity Code](#): All Students should be aware that the Department of Chemistry & Environmental Science (CES) takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

Course Description: CHEM 125: General Chemistry I Section 103

Time(s): Monday 6:00PM - 8:50 PM

Instructor: Patrick DePaolo

Location(s): GITC 1100 (Guttenberg Information Technology Center) and Zoom web seminar

Number of Credits: 3

Corequisites: Math 110 or equivalent

Email and Phone (text only): depaolo@njit.edu; patdepaolo@gmail.com; 732-284-6803

Office Hours: Monday and Thursday 5:00PM-6:00PM Tiernan 114 or by appointment

Course-Section and Instructors

Course-Section	Instructor
CHEM-125-103	Patrick DePaolo

Required Textbook:

Title	Chemistry, A Molecular Approach
Author	Nivaldo J. Tro
Edition	Fifth
Publisher	Pearson
ISBN #	ISBN-13: 978-0134874371

University-wide Withdrawal Date: The last day to withdraw with a W is Monday, November 9, 2020. It will

be strictly enforced.

Learning Outcomes:

- 1. Learn measurement units and perform unit conversions systematically using dimensional analysis or multiplication by one**
- 2. Explain atomic structure and determine average atomic mass.**
- 3. Learn to use periodic table to predict charges on atoms.**
- 4. Understand mole concept: convert mass into moles and vice versa**
- 5. Write chemical formulas of compounds using the periodic table and name ions and simple compounds.**
- 6. Calculate mass of molecules, and mass % of individual atoms in compounds**
- 7. Calculate moles, molecular and empirical formula of a compound from basic principles using proper unit conversions**
- 8. Balance chemical equations**
- 9. Identify various types of chemical reactions and apply the concept of limiting reagent to calculate percentage yield of products in different reaction types.**
- 10. Define solute, solvent and apply mole concept in aqueous solutions.**
- 11. Determine oxidation states of elements in compounds**
- 12. Describe acid-base, precipitation and redox reactions in solution**
- 13. Understand Kinetic model of gases and apply various gas laws in problem solving.**
- 14. Apply first law of thermodynamics to chemical problems and calculate the energy changes in chemical reactions**
- 15. Explain the quantum mechanical basis for the sub-structure of the atom**
- 16. Write the electronic configuration for the elements in the periodic table and describe trends in periodic properties**
- 17. Draw the Lewis dot structures for simple molecules and exceptions to octet rule**
- 18. Discuss electronegativity and bond polarity**
- 19. Use VSEPR to predict shapes of molecules and whether a molecule will have a dipole moment**
- 20. Identify sigma and pi bonds and explain the hybridization of the molecules**
- 21. Explain intermolecular force and the differences in bonding patterns between solids liquids and gases**
- 22. Describe differences in basic crystalline shapes**
- 23. Determine edge length and density of simple crystalline shapes.**
- 24. Predict changes in freezing point, elevation in boiling point and osmotic pressure when a solute dissolves in a pure solvent**

POLICIES

All CES students must familiarize themselves with, and adhere to, all official university-wide student policies. CES takes these policies very seriously and enforces them strictly.

Grading Policy: The final grade in this course will be determined as follows:

Homework (Basic HW: 60 + Regular HW 100) points	160
Class Participation (recitation + lecture)	190
Common Exam I	125
Common Exam II	125
Common Exam III	125
Final Exam	275
Total points	1000

Your final letter grade in this course will be based on the following tentative curve:

A	>835	C	600-659
B+	775-834	D	550-599
B	710-774	F	<550
C+	660-709		

You must maintain an average of 35%, which is 228 points in the common exams and finals to be considered for a grade of D or higher. You will receive an F even if you have adequate point total without this requirement.

Attendance Policy: Attend class either in-person or virtually on zoom. Attendance will count toward your class participation grade. If you have a valid reason to miss a class, please let me know. **In person attendance is limited to 15 students.** We will practice social distancing in the classroom. There will be a sign-up sheet for in person attendance on Canvas that will be filled on a first-come, first-serve basis.

Homework Policy: There will be both basic homework and regular homework assignments to be completed on canvas. The basic homeworks are to be completed during class while the regular homeworks will be due one week after the covered material, as per the detailed schedule below.

Exams: There will be three exams held in class/on zoom during the semester and one comprehensive final exam. The following exam dates are tentative and therefore possibly subject to change:

Common Exam 1	Monday September 28 th
Common Exam 2	Monday, November 2 nd
Common Exam 3	Monday November 30 th
Final Exam	Monday December 21 st

The final exam will test your knowledge of all the course material taught in the entire course.

Makeup Exam Policy: There will normally be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event that a student has a legitimate reason for missing a quiz or exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor's note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the CES Department Office/Instructor that the exam will be missed so that appropriate steps can be taken to make up the grade.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times. Such devices must be stowed in bags during exams or quizzes.

ADDITIONAL RESOURCES

Chemistry Tutoring Center: Located in the Central King Building, Lower Level, Rm. G12. Hours of operation are Monday - Friday 10:00 am - 6:00 pm. For further information please click [here](#).

Accommodation of Disabilities: Office of Accessibility Resources and Services (*formerly known as Disability Support Services*) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director at the Office of Accessibility Resources and Services at [973-596-5417](tel:973-596-5417) or via email at lyles@njit.edu. The office is located in Fenster Hall Room 260. A Letter of Accommodation Eligibility from the Office of Accessibility Resources Services office authorizing your accommodations will be required.

For further information regarding self-identification, the submission of medical documentation and additional support services provided please visit the Accessibility Resources and Services (OARS) website at:
