Recommended Citation

This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.
This class is offered Synchronous Online mode: delivery of instruction takes place during the day and time noted, independent of location. All course activity can be completed online through the learning management system. There are no face-to-face sessions, but remote attendance is expected. Webex will be used for synchronous delivery of the course materials. Notifications will be sent to the registered Students on the day of the class.

PRE-REQUISITES AND CO-REQUISITES:
- Pre-requisites: Phys 102 or Phys111 with a grade C or better
- Phys 103A (the lab course component) is not a co-requisite for our Lecture class in the Spring 2021 Semester. Also note that:
  1) If a student has an approved medical accommodation from the Dean of Students, the student can take the Phys103A lab course entirely online.
  2) If a student does not have an approved medical accommodation, then the Phys103A lab cannot be taken online and has to be face-to-face or postponed to a later time. Phys103A lab still remains to be required for graduation.

FAILURE TO MEET EITHER CO-Requisites or PRE-Requisites will result in student being dropped from class.

COURSE MATERIAL:
- Mastering Physics Homework System: Be sure that your textbook is sold bundled with a Mastering Physics student access code card. Each student must enroll in the course specified by his/her instructor. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system.

ATTENDANCE: The NJIT attendance policy is the following: "It is expected that students will attend all classes. Your teacher will take attendance at all classes and exams. More than 3 unexcused absences (in total) are excessive. The attendance is in the classroom or via WebEx.

COUNSELING AND ACADEMIC SUPPORT: The Center for Counseling and Psychological Services is committed to assisting students experiencing high levels of personal challenge and stress. If you need accommodations due to a disability, please contact Associate Director of Disability Support Services.

HELP: Visit or email your instructors if you are having trouble with the course; do not simply hope for a miracle and fall further behind. Tutoring y Physics Dept will begin on Monday, January 25 and end Tuesday, May 4, 2021. Tutoring schedule will be posted at: https://physics.njit.edu/physics-tutoring-sign-sheet

GRADING: Final letter grades will be based on a term average for the semester's work that includes the three common exam scores, the final exam, and the homework score.

HOMEWORK Homework assignments will be posted on-line using the Mastering Physics Homework System. Please register for your section using login: www.masteringphysics.com. See instructions at the end of the file.

COURSE CODES TO REGISTER TO HOMEWORK CLASSES with PROF. SIRENKO

Section 101 – CRN 14563
Instructor’s ID in Mastering Physics: sirenko93786
Mastering Physics Course for HWs: PHYSICS 103 NJIT FALL 2020 SIRENKO
COMMON EXAMS

Three common exams will be given during the semester. The schedule is:

- **Common Exam 1:** Monday, Feb 22nd 7:15 – 8.50 PM
- **Common Exam 2:** Monday, March 29th 7:15 – 8.50 PM
- **Common Exam 3:** Monday, April 19th 7:15 – 8.50 PM

FINAL EXAM

Comprehensive Final Exam will be given during the Final Exam Week, TBD

Here are the weights to be used for calculating term averages:

- 45% for all three common exams (15% each)
- 30% for the final exam
- 25% for the total of homework

The conversion of term average values to letter grades will use the following cutoff values:

- 80% for A, 76% for B+, 66% for B, 60% for C+, 55% for C, 50% for D, F below 50%.

COURSE POLICIES

In order to insure consistency and fairness in application of the NJIT policy on withdrawals, student requests for withdrawals after the deadline *(end of the 10th week of classes)* will not be permitted unless extenuating circumstances are documented through the Office of the Dean of Students. The course instructor and the Dean of Students are the principal points of contact for students considering withdrawing from a course. When a student invokes extenuating circumstances for any reason (late withdrawal from a course, request for a make-up exam, request for an Incomplete grade) the student will be sent to the Dean of Students Office. The Dean of Students will be making the determination of whether extenuating circumstances exist or not and will be notifying the instructor accordingly. Instructors should never request or accept medical or other documents from students; such documents need to be submitted by the student to the Dean of Students.

HONOR CODE

“A**ademic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at: [http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf](http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf).

Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at dos@njit.edu”

LEARNING OUTCOMES: For this course you can expect to be assessed on the following learning outcomes:

1. Comprehend the meaning of equations governing the fluid at rest and fluid in motion. Understand the extension of conservation of energy and mass equations to fluid dynamics.
2. Define temperature scales.
3. Understand the phenomena of thermal expansion and Ideal Gas Law,
4. Understand the concept of heat, calorimetry, and heat transfer.
5. Understand the basics concepts of thermodynamics.
6. Comprehend the meaning of equations governing oscillations and mechanical waves and apply those concepts to solve related problems.
7. Understand the concept of electric charge, electric field, electric potential, and electric current. Apply those concepts to solve simply circuits.
8. Understand the basic concepts of geometrical optics and learn how to apply them for mirrors, lenses and optical fibers.
9. Comprehend the wave theory of light and apply it the phenomena of interference and diffraction.
## COURSE SYLLABUS

**PHYSICS 103 - Section102**

**SPRING 2021**

### IMPORTANT DATES:

*Spring Break: March 14th-March 21st*

**FINAL EXAM PERIOD – May 7th to May 13th**

Student Registration Instructions

To register for PHYSICS 103 NJIT SPRING 2021 SIRENKO:

2. Under Register, select Student.
3. Confirm you have the information needed, then select OK! Register now.
4. Enter your instructor’s course ID: sirenko93786, and Continue.
5. Enter your existing Pearson account username and password to Sign In.
   You have an account if you have ever used a MyLab or Mastering product.
   » If you don’t have an account, select Create and complete the required fields.
6. Select an access option.
   » Enter the access code that came with your textbook or that you purchased separately from the bookstore.
   » If available for your course,
     • Buy access using a credit card or PayPal.
     • Get temporary access.
   If you’re taking another semester of a course, you skip this step.
7. From the You’re Done! page, select Go To My Courses.
8. On the My Courses page, select the course name PHYSICS 103 NJIT SPRING 2021 SIRENKO to start your work.

To sign in later:

2. Select Sign In.
3. Enter your Pearson account username and password, and Sign In.
4. Select the course name PHYSICS 103 NJIT SPRING 2021 SIRENKO to start your work.

To upgrade temporary access to full access:

2. Select Sign In.
3. Enter your Pearson account username and password, and Sign In.
4. Select Upgrade access for PHYSICS 103 NJIT SPRING 2021 SIRENKO.
5. Enter an access code or buy access with a credit card or PayPal.
