THE DEPARTMENT OF MATHEMATICAL SCIENCES

MATH 112 : Calculus Fall 2024 Course Syllabus

NJIT Academic Integrity Code: All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

Course Description: Topics include integration, applications of integration, series, exponential and logarithmic functions, transcendental functions, polar coordinates, and conic sections.

Number of Credits: 4

Prerequisites: MATH 111 with a grade of C or better or MATH 132 with a grade of C or better.

Course-Section and Instructors:

| Course-Section | Instructor |
|----------------|----------------------|
| Math 112-001 | Professor A. Flax |
| Math 112-003 | Professor J. Zaleski |
| Math 112-005 | Professor A. Flax |
| Math 112-007 | Professor J. Porus |
| Math 112-009 | Professor J. H. Ro |
| Math 112-011 | Professor J. H. Ro |
| Math 112-013 | Professor A. Flax |
| Math 112-015 | Professor J. Zaleski |
| Math 112-017 | Professor N. Dubicki |
| Math 112-019 | Professor N. Dubicki |
| Math 112-021 | Professor D. Schmidt |
| Math 112-023 | Professor D. Schmidt |
| Math 112-025 | Professor A. Flax |

| Math 112-027 | Professor J. Porus |
|--------------|--------------------------|
| Math 112-029 | Professor P. Petropoulos |
| Math 112-101 | Professor H. Behzadpour |

Office Hours for All Math Instructors: Fall 2024 Office Hours and Emails

Required Textbook:

| Title | Thomas' Calculus: Early Transcendentals |
|-----------|---|
| Author | Hass, Heil, and Weir |
| Edition | 15th |

University-wide Withdrawal Date: The last day to withdraw with a W is Monday, November 11, 2024. It will be strictly enforced.

STUDENT RESPONSIBILITIES

- Read and understand the syllabus.
- Adhere to all policies and procedures
- Report conflicts and/or special circumstances in a timely manner
- Report any instances of violations of Academic Integrity to your Instructor
- Communicate directly with your Instructor on ALL course-related matters, including material, procedures, policies and exams. NOTE: Do not attempt to contact other instructors or the course Coordinator - you will not get a response. All course information will be communicated to you directly by your instructor.
- Effectively manage time and devote sufficient time to succeeding in this course
- Keep track of your grades
- Make use of all resources available to help you learn
- Be respectful of peers and your instructor
- Accept responsibility for your grades requests for extra credit opportunities will be denied

COURSE GOALS

Course Objectives

• Students should (a) develop greater depth of understanding of integration and its importance in scientific and engineering applications, (b) learn about series, including their convergence properties and their use in representing functions, (c) gain experience in the use of approximation in studying mathematical and scientific problems and the importance of mathematically understanding and evaluating the accuracy of

approximations, (d) learn new ways of mathematically representing curves and how to use calculus in these settings, and (e) learn alternative coordinate systems which are natural for many problems and learn how calculus can be applied in these systems.

- Students should gain an appreciation for the importance of calculus in scientific, engineering, computer, and other applications.
- Students should gain experience in the use of technology to facilitate visualization and problem solving.

Course Outcomes

- Students have improved logical thinking and problem-solving skills.
- Students have a greater understanding of the importance of calculus in science and technology.
- Students are prepared for further study in mathematics as well as science, engineering, computing, and other areas.

Course Assessment: The assessment of objectives is achieved through homeworks, quizzes, and common examinations with common grading.

POLICIES

DMS Course Policies: All DMS students must familiarize themselves with, and adhere to, the Department of Mathematical Sciences Course Policies, in addition to official university-wide policies. DMS takes these policies very seriously and enforces them strictly.

| Quizzes and Homework | 17% |
|----------------------|-----|
| Common Midterm 1 | 17% |
| Common Midterm 2 | 17% |
| Common Midterm 3 | 17% |
| Final Exam | 32% |

Grading Policy: The final grade in this course will be determined as follows:

Your final letter grade will be based on the following tentative curve.

| Α | 88 - 100 | С | 66 - 71 |
|----|----------|---|---------|
| B+ | 83 - 87 | D | 60 - 65 |
| В | 77 - 82 | F | 0 - 59 |
| C+ | 72 - 76 | | |

THE FINAL GRADE DISTRIBUTION WILL BE DETERMINED BY COURSE INSTRUCTORS IN A MEETING TO BE HELD AFTER THE FINAL EXAM.

Attendance Policy: Attendance at all classes will be recorded and is mandatory. Please make sure you read and fully understand the Math Department's Attendance Policy. This policy will be strictly enforced. Each class is a learning experience that cannot be replicated through simply "getting the notes."

Homework: Homework is a requirement for this class. Online homework will be completed with MyMathLab, which comes with a new copy of the textbook. Access to it can also be purchased directly from the website.

Quizzes: Quizzes will be given approximately once a week throughout the semester. They will be based on the lecture, homework and the in-class discussions.

Exams: There will be three common midterm exams held during the semester and one comprehensive common final exam. Common Midterm Exams will be held on the following days:

| Common Midterm Exam I | September 25, 2024 | |
|-------------------------|---------------------------------|--|
| Common Midterm Exam II | October 23, 2024 | |
| Common Midterm Exam III | November 20, 2024 | |
| Final Exam | December 15 - December 21, 2024 | |

The time of the midterm exams is **4:15pm - 5:40 PM** for daytime students and **6:00 - 7:25 PM** for evening students. The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the Math Department's Examination Policy. This policy will be strictly enforced.

Makeup Exam Policy: To properly report your absence from a midterm or final exam, please review and follow the required steps under the DMS Examination Policy found here:

http://math.njit.edu/students/policies_exam.php

Mandatory Tutoring Policy: Based upon academic performance indicating a significant gap in understanding of the course material, students may receive a notice of being assigned to mandatory tutoring to assist in filling the gap. A student will have 2 points deducted from the course average for each instance in which the required tutoring is not completed by the stated deadline.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times.

ADDITIONAL RESOURCES

Math Tutoring Center: Located in the Central King Building, Lower Level, Rm. G11 (See: Fall 2023 Hours)

Further Assistance: For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department's webpage for Instructor Office Hours and Emails.

Accommodation of Disabilities: The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you need an accommodation due to a disability, please contact the Office of Accessibility Resources and Services at oars@njit.edu, or visit Kupfrian Hall 201 to discuss your specific needs. A Letter of Accommodation Eligibility from the office authorizing student accommodations is required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Office of Accessibility Resources and Services (OARS) website at:
