EVSC 125-002 Fundamentals of Environmental Science: *Spring 2022 Course Syllabus*

E-mail: michael.p.bonchonsky@njit.edu; also at mickbon@aol.com

Class to be held live (or other as may be announced) at the start of semester Tues and Fri 8:30-9:50 (yes, AM !)

The course materials are posted on webex **go to <https://njit.webex.com>**

Office Hours: right after class Tues and Fri right after class 10:00-11:00 and by Webex appt

[NJIT Academic Integrity Code](#): All Students should be aware that the Department of Chemistry & Environmental Science takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

I. Course Description and Objectives Summary:

An introductory course to the interdisciplinary study of the complex interactions that occur among and within environmental systems: air, water, and terrestrial environs. The course includes an emphasis on anthropocentric effects on these environmental systems. It is provided as a part of a curriculum in applied environmental science and as such emphasizes problem identification and engineered solutions. The course serves as an introduction to further advanced study specializing in environmental science and engineering.

Number of Credits: 3 Cr

Prerequisites: None

Course-Section and Instructors

Course-Section	Instructor
EVSC 125 TF 8:30-9:50; live (or as notified) FMH 407, materials posted	MP Bonchonsky

Office Hours for All Chemistry & Environmental Science Instructors: [Spring 2022 Office Hours as above](#)

Required Textbook:

Title	<i>Environmental Science as a Living Planet , Botkin and Keller, 9th edition</i>
Author	Botkin and Keller
Edition	9th
Publisher	Wiley
ISBN #	ISBN13: 978 1118427323 ISBN 10 1118427327

University-wide Withdrawal Date: The last day to withdraw is as shown on the NJIT academic calendar currently listed as Monday, April 4, 2022. It will be strictly enforced.

Learning Outcomes:

Student learners will:

- Learn core concepts and methods from natural and physical sciences and their application in environmental problem solving.
- Understand the transboundary character of environmental problems and ways of addressing them, including interactions across local to global systems.
- Analyze basic public works and private systems that provide potable water, treat wastewater and manage air quality
- Demonstrate an ability to communicate effectively in written and oral form, demonstrating the ability to create an appropriate annotated bibliography and the ability to use effective presentation skills.
- Develop a sense of community responsibility by becoming aware of scientific issues in the larger social context.
- Demonstrate interpretative skills including the ability to analyze data, assess reliability, interpret results and draw reasonable conclusions.
- Become well-grounded in laws and theories of basic scientific disciplines by demonstrating and applying the scientific method.
- Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world.
- Develop and incorporate standards of professional behavior that include rules of ethics and etiquette.

The course EVSC 125 covers these overarching topics:

The natural environment and population

Energy and the Environment

The aqueous environment

The terrestrial environment

The air environment

Industrial impacts and Sustainability

POLICIES

All EVSC students must familiarize themselves with, and adhere to, all official university-wide student policies. EVSC takes these policies very seriously and enforces them strictly.

Grading Policy: The final score in this course will be determined as follows:

Essays	20%
Quizzes	20
Participation	5
Midterm Exam	25
Final Exam	30

The final course grade will be determined as follows:

Final Grade	Overall Academic Performance (100%)
A	90 and above
B+	85-89
B	80-84
C+	75-79
C	70-74
D	60-69
F	Below 60

Attendance Policy: Attendance at classes will be recorded and is **mandatory**. Each class is a learning experience that cannot be replicated through simply “getting the notes.”

Homework Policy: Homework is an expectation of the course. The homework assignments set by the instructor are used in class discussions which comprise in part the determination of the score for “participation”.

Exams: There will be quizzes, a midterm exam held in class during the semester and one final exam. The following exam periods are tentative and therefore possibly subject to change (see moodle for any updates):

Midterm Exam	See Canvas
Quizzes	Dates as shown on Canvas
Final Exam Period	May 6-12, see Registrar exam schedule

Makeup Exam Policy: There will normally be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event that a student has a legitimate reason for missing a quiz or exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor’s note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the CES Department Office/Instructor that the exam will be missed so that appropriate steps can be taken to make up the grade.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times. Such devices must be stowed in bags during exams or quizzes.

ADDITIONAL RESOURCES

Accommodation of Disabilities: Office of Accessibility Resources and Services (*formerly known as Disability Support Services*) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director at the Office of Accessibility Resources and Services at **973-596-5417** or via email at lyles@njit.edu. The office is located in Fenster Hall Room 260. A Letter of Accommodation Eligibility from the Office of Accessibility Resources Services office authorizing your accommodations will be required.

For further information regarding self-identification, the submission of medical documentation and additional support services provided please visit the Accessibility Resources and Services (OARS) website at:

- <http://www5.njit.edu/studentuccess/disability-support-services/>

Important Dates (See: always check [Spring 2022 Academic Calendar, Registrar](#))

Date	Event
January 18, 2022	First Day of Class for this course
January 24	Last Day to Add/Drop Classes
April 4	Last Day to Withdraw
March 14-19	Spring Break - University Closed
May 3	Last Day of Classes
May 6-12	Final Exam Period

Course Outline

(please see Canvas course website for any changes and updates during the semester)

Lecture topics, dates shown on Canvas website:

Week 1 (Class starts Tu Jan 18, Th 20) Introduction to Environmental Science...review of syllabus, assignments, selected readings; introduction to environmental science, relationship to traditional disciplines of study, and its applications in the real world today.

Week 2 (Jan 25, 28) Biomes: major ecological systems of the world; review of interrelationships of organisms and habitats; adaptation and evolution principles.

Week 3 (Feb 1, 4) Energy in the Natural Environment

Energy and Cycles of Energy in Nature

Week 4 (Feb 8, 11) Energy in the Anthro- Environment

Principles of energy

First and Second Laws of Thermodynamics

(Conservation of Energy and examples of Entropy, as found in environmental systems)

Sources and Forms of Energy Development

Fossil Fuels

Nuclear Fuels

Alternative Energy Development Patterns

Solar Energy: Passive Systems, Solar/Electric

Advantages and Disadvantages of alternatives

Existing Energy Infrastructure

Energy for the future, renewable energy sources

Energy Use in Industrial Societies

Energy Consumption in the United States

Comparative Energy Use Internationally

Nonrenewable Energy Sources

Renewable Energy Sources

Week 5 (Feb 15, 18) Population Quiz

Age structure diagrams

Total Fertility rate, Birth rates

Human Population Dynamics

Demographic transition

Week 6 (Feb 22- 24) Water Quality

The water molecule

The hydrologic cycle

Quantity and Quality of Water Resources

Surface water, groundwater characteristics

Algal Nutrients and Eutrophication

Basic Examination of Water and Wastewater Problem set

Week 7 (March 1, 3) February Water Pollution

Sources of Pollution

Parameters and Constituents

Related measurements

Week 8 (March 8-10) Midterm Review and Exam week

Week 9 Spring Break March 14-19

Week 10 (March 22, 25) Basic Water and Wastewater Treatment Systems

Biological Systems
Chemical Physical Systems
Health Impacts and concerns

Week 11 (March 28, Apr 1) Terrestrial and Groundwater Environment

Groundwater Hydrology Contaminants, Transport
Land Resources and Conservation
Soils and their preservation
Minerals: reserves and consumption
Chemical and physical properties of soil
Soil Matrix Systems
Land Disposal of Solid Waste
Fate of Pollutants in Soil Matrix
Wetlands Impacts

Week 12 (April 4, 8) Atmospheric Environment Problem set

Atmospheric Strata and Quality of Atmosphere
Fate of Chemicals in the Atmosphere
Indoor Air Pollution
Global Warming, Greenhouse Effect
Hydrocarbons and Photochemical Smog
Industrial Air Pollution Control Systems

Week 13 (April 12, 15) Hazardous Waste... Quiz

Identification of hazardous waste
Resource Conservation and Recovery Act
Hazardous waste management
Treatment and Remediation

Week 14 (April 19, 15) Recycling, Solid Waste

Status of community practices
Global developments in waste handling

Week-14 April 19, 22 Sustainable Development

Consumerism
Biological Systems and Biodiversity
Global Changes Trends
“Tragedy of the Commons”/Environmental Impact Statements

Week-15 Tues May 3 last day of classes and Review

Finals Week begins as scheduled by registrar exam schedule beginning May 6 to May 12

Updated by MPB - 2022

Spring 2022 Academic Calendar

January	17	Monday	Martin Luther King, Jr. Day
January	18	Tuesday	First Day of Classes
January	22	Saturday	Saturday Classes Begin
January	24	Monday	Last Day to Add/Drop a Class
January	24	Monday	Last Day for 100% Refund, Full or Partial Withdrawal
January	25	Tuesday	W Grades Posted for Course Withdrawals
January	31	Monday	Last Day for 90% Refund, Full or Partial Withdrawal, No Refund for Partial Withdrawal after this date
February	14	Monday	Last Day for 50% Refund, Full Withdrawal
March	7	Monday	Last Day for 25% Refund, Full Withdrawal
March	14	Monday	Spring Recess Begins - No Classes Scheduled - University Open
March	19	Saturday	Spring Recess Ends
April	4	Monday	Last Day to Withdraw
April	15	Friday	Good Friday - No Classes Scheduled - University Closed
April	17	Sunday	Easter Sunday - No Classes Scheduled - University Closed
May	3	Tuesday	Friday Classes Meet
May	3	Tuesday	Last Day of Classes
May	4	Wednesday	Reading Day 1
May	5	Thursday	Reading Day 2
May	6-12	Friday-Thursday	Final Exams
