This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Course Outline
Physics 102 Sect. 005 and 007
Fall 2021
(updated on 8/30/21)

Prof. Keun Hyuk "Ken" Ahn
483 Tiernan Hall
973-596-5227 (office)
kenahn@njit.edu

Lecture and recitation for **Section 005**:
Tuesday 11:30am – 12:50pm, CKB 217
Thursday 4pm – 5:20pm, TIER 112

Lecture and recitation for **Section 007**:
Tuesday 11:30am – 12:50pm, CKB 217
Thursday 11:30am – 12:50pm, TIER 111

Office hours: 10-11am Tuesdays, or by appointment

Course Website: <http://web.njit.edu/~kenahn/21fall/phys102/phys102.htm>
(linked at <http://web.njit.edu/~kenahn>)

Pre- and Co-requisite Courses

Prerequisite: Satisfactory completion of two high school mathematics courses and two high school science courses.

Laboratory - Physics 102A

The laboratory component of the course is Phys 102A. This laboratory course may be optional for your major; confirm it with your department. If it is required for your major, it must be taken concurrently unless you have previously taken and passed Phys 102A. The grading for the laboratory is separate from the course/recitation (Phys 102) and the grades are given by the laboratory instructors. Latest edition of **Lab manual "Physics 102A Laboratory Manual"** can be purchased from NJIT Bookstore.

YOU MUST REGISTER FOR THE LECTURE/RECITATION (Phys 102) AND THE LABORATORY COURSE (Phys 102A) SEPARATELY. WITHDRAWAL FROM ANY OF THESE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM ALL Phys 102 COURSES.

Course Materials

Textbook:

Physics - Principles with Applications, 7th ed. by Giancoli (Publisher: Pearson)

Mastering Physics Online Homework System:

Be sure that your textbook is sold bundled with a Mastering Physics student access code card. You can also buy the student access code card separately either from NJIT bookstore or online. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system. Instruction can be found on the student access code card. **To enroll for this section of the course, use course ID "ahn47105".**

Online Class Response System:

We will use an **online** class response system called “**iClicker REEF**”. The iClicker quizzes must be answered with **iClickers REEF app on iPhone/Android phone/computer only. Physical iClickers cannot be used.** For those of you with **iPhone or Android Phone**, you can download an app “**iClicker REEF**” for your iPhone or Android Phone, and buy a subscription, which will turn your iPhone or Android Phone into an iClicker. Alternatively, you can sign into the iClicker Reef web app from your laptop, tablet, or smartphone, and buy a subscription. Either way, you have to buy **a paid subscription, instead of using it as a free trial.** Consult the iClicker web page <https://www.iclicker.com/> for details. You will need **the school zip code, 07102.**

Email:

NJIT email will be routinely used for announcements and to distribute material. Be sure check the NJIT email every day.

Attendance

Attendance at lectures and recitations is mandatory; it may constitute a portion of the final grade. Missing more than three lectures will be reported to the Dean of Freshman Studies throughout the semester and can result in failing the course. Students with absences need to discuss their extenuating circumstances for missing the classes with the Dean.

COVID-19 Policy

Students must follow the rules set by NJIT regarding COVID-19.

Exams

There will be two Common Exams and a Final Exam during the term. The exam schedule is:

Common Exam 1: Wednesday, September 29, 4:15 – 5:45 pm

Common Exam 2: Wednesday, October 27, 4:15 – 5:45 pm

Final Exam: To be announced

There will be no makeup exams.

Grading

Final grades will be based on a composite score for the term’s work that includes two common exams, the final exam, homework score, written quizzes, iClicker REEF quizzes, and class participation. The approximate weights we expect to use in calculating the composite score are:

- 23 % for Exam 1
- 23 % for Exam 2
- 35 % for Final Exam
- 12 % for Homework grade
- 7 % for iClicker REEF quiz + Algebra Quiz + Lecture Quizzes + Class participation

Extra credit may be given for active class participation, etc. Negative credit may be applied for lateness, creating noise, not following COVID-19 rules, or otherwise interfering with class work.

The cutoff percentages for various letter grades will be in the range of 84.0% for A, 76.0 % for B+, 68.0% for B, 60.0% for C+, 52.0% for C, 44.0% for D, F below 44.0 %.

C or better grade is required to take further physics courses. If you get D in Physics 102, you cannot take the next level physics course.

Reading Assignments

The text readings are listed below. You should read the assigned sections of the text before the lecture covering that material.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above.

Honor Code Violations or Disruptive Behavior

NJIT has a zero-tolerance policy for cheating of any kind and for student behavior that disrupts learning by others. Incidents will be immediately reported to the Dean of Students. The penalties for violations range from a minimum of failure in the course with disciplinary probation up to expulsion from NJIT. Avoid situations where your own behavior could be misinterpreted, even if it is honorable. Students are required to agree to the NJIT Honor Code on each exam. Turn off all cellular phones, wireless devices, computers, and messaging devices of all kinds during exams. Please do not create noise in class that interferes with the work of students or instructors.

Help

Students are encouraged to meet with their instructor during their office hours. Physics Department also offers tutoring as posted on <http://physics.njit.edu/>, for which students do not need to sign up but just can go to open sessions provided in the schedule.

Learning Outcomes:

For this course, you can expect to be assessed on the following learning outcomes:

1. Recall the definitions and relationships involving position, velocity, speed, acceleration, vectors, Newton's Laws, circular motion, free-body diagrams, friction, work, energy, linear and angular momentum, torque, angular velocity and acceleration, and gravitation.
2. Apply the equations governing 1-D and 2-D constant acceleration to mechanical systems for various initial conditions. Calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
3. Comprehend the meaning of the equations governing net force and acceleration (Newton's Laws), and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship. Understand the extension of these equations to rotational motion, and gravitation.
4. Generalize the concepts underlying the equations of motion, such as work, kinetic and potential energy, conservation of energy, and equilibrium.
5. Comprehend the meaning of equations governing momentum, impulse, and collisions. Apply the equations governing momentum, impulse, and collisions mechanical systems for various initial conditions. Understand under what conditions momentum is conserved and how to use this relation to calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
6. Understand the extension of linear motion equations to rotational motion. Comprehend the meaning of the equations governing rotational motion and acceleration, and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship.

2021 Fall Course Schedule for Phys 102-005 and 007

Dates	Lecture Topics	Text Reading
9/2 Th, 9/7 Tu	Math Review, Introduction Measurement and Units	Appendix A-4, Ch 1, Sec 1-6
9/9 Th, 9/14 Tu	Motion in One Dimension	Ch 2, Sec 1-8
9/16 Th, 9/21 Tu, 9/23 Th	Vectors and Two-Dimensional Motion	Ch 3, Sec 1-6
9/28 Tu, 9/30 Th	The Laws of Motion - Forces and Newton's Laws	Ch 4, Sec 1-5
9/29 W	Common Exam 1 (4:15-5:45pm)	Math Review, Ch. 1 - Ch. 3.6
10/5 Tu, 10/7 Th	The Laws of Motion - Applications of Newton's Laws	Ch 4, Sec 6-8
10/12 Tu	Circular motion	Ch. 5, Sec. 1, 2, 4 (excluding highway curves)
10/14 Th, 10/19 Tu	Energy -Work, Kinetic Energy, Work-Energy Theorem	Ch. 6, Sec. 1, 3
10/21 Th, 10/26 Tu	Energy -Potential Energy, Mechanical Energy, Energy conservation, Power	Ch. 6, Sec. 4-7, 9, 10 (excluding spring)
10/27 W	Common Exam 2 (4:15-5:45pm)	Ch. 4, Ch.5.1-Ch.5.4, Ch.6.1, Ch.6.3
10/28 Th, 11/2 Tu	Momentum and Collisions -Momentum, Impulse, Conservation of Momentum	Ch. 7, Sec. 1-3
11/4 Th	Momentum and Collisions -Collisions	Ch 7, Sec. 4-8, 10
11/9 Tu, 11/11 Th	Rotational Motion, Rotational Dynamics I	Ch 8, Sec 1-3
11/16 Tu, 11/18 Th, 11/23 Tu	Rotational dynamics II	Ch.8, Sec. 4-8
11/30 Tu, 12/2 Th	Static Equilibrium	Ch. 9, Sec. 1-4
12/7 Tu, 12/9 Th	The Law of Gravity	Ch 5, Sec. 5-7 (excluding Kepler's Laws)
Date to be announced	Final Exam	Everything learned in class

*** The professor will discuss changes to the syllabus during class if they arise.**
