Course Description

HUM 102 is an introduction to writing using both primary and secondary sources. While building on the skills you learned and practiced in HUM 101, HUM 102 asks you to develop research questions, find and cite sources, conduct your own primary research, and synthesize elements of research into coherent wholes. To do so successfully, you will be asked to understand and interpret sources and put them in conversation with each other, as well as correctly document and attribute them. Overall, the general purpose of this class is to set you up for research and writing success in your future courses, both inside and outside of your major.

As an Honors student in an Honors course, you will be expected to apply your developing information literacy, advanced critical thinking and writing skills, and communication skills to your community, whether that is a community outside the academy or your chosen discipline inside the academy. All your assignments will be developed with this goal in mind, and will contain a short attached essay explaining how your project will directly benefit,

support, or assist a community you are involved in, justifying the selection of topic and argument.

Course Goals

- During this course you will:
- Explore and refine research topics
- Find, evaluate and choose sources effectively
- Practice writing from primary and secondary research, developing different types of research projects that may use fieldwork, library, and online research methods
- Demonstrate knowledge of the conventions of bibliographic citation
- Demonstrate an understanding of intellectual property, plagiarism, and the importance of distinguishing between source material and one's own work.
- Draft, review, and revise multiple versions of a single writing project

Required Texts

Introduction to Academic Research. Online textbook. *Buy from NJIT Bookstore or TopHat. You will receive an invitation in your NJIT email.*

Attendance

Participation in in-class activities, discussions, and workshops will contribute to your knowledge, ability, and performance. At a minimum, this means showing up on time, being prepared, and actively contributing to class discussions. Your level of engagement with the material will subsequently impact how much you get from the class.

- You may miss up to one week of class without penalty. Every subsequent unexcused absence will result in the deduction of participation points. If you are absent for legitimate reasons (family emergency, illness) you must provide a doctor's note or a note from your dean.
- Participation on workshopping days is mandatory. If you know in advance that you will miss one of these days, please meet with me to arrange an alternative solution.
- Please contact your classmates for missed work.
- **You may always attend remotely for any reason, even when converged attendance is approved. The class is organized to provide the same benefits to students who opt for remote attendance as for students who attend in person.**

Assignment Submission

All assignments must be submitted on Canvas. I will not accept emailed work. Specific formatting guidelines will vary according to each assignment, so please follow the explicit guidelines found on individual assignment sheets. Assignments are due at the beginning of class. Late class work and homework will only be accepted if your absence is excused.

Technology

Contact me via email. I will respond to your emails within 24 hours. Please plan accordingly. Remember to maintain an appropriate tone in all school-related correspondence. This means to

include an appropriate SUBJECT line and your NAME in all emails. I will not respond to emails that do not include the sender's name.

NJIT University Code on Academic Integrity

The New Jersey Institute of Technology is an institution dedicated to the pursuit of knowledge through teaching and research. We expect our graduates to assume positions of leadership within their professions and communities. Honesty in your academic work will develop into professional integrity.

The NJIT Code of Academic Integrity embodies a spirit of mutual trust and intellectual honesty that is central to the very nature of the university and represents the highest possible expression of shared values among the members of the university community.

All assignments submitted shall be considered "graded work" and all aspects of your coursework are covered by the Code on Academic Integrity. All projects and homework assignments are to be completed individually unless otherwise specified.

The full text of the NJIT University Code on Academic Integrity can be found at www.njit.edu/education/pdf/academic-integrity-code-pdf.

Accessibility Needs

Every attempt will be made to accommodate qualified students with disabilities. If you are a student with a documented disability, please see me as early in the semester as possible to discuss the necessary accommodations, and/or contact Student Disability Services at 973-596-3420.

The Writing Center

The Writing Center is available for one-hour individual and group appointments with professional writing tutors both onsite and online. This resource is intended to help you improve your communication and writing skills. Tutors help with planning assignments, improving your writing, refining an essay or multimedia project, or other communication-based needs. For more information, please visit <http://humanities.njit.edu/writingcenter>.

Grading

Every assignment will either come with a rubric or be graded pass/fail on the basis of clear requirements; pass/fail assignments are worth the full amount, while graded assignments are worth 50-100%. You will frequently work on projects during class time and receive feedback during the writing process. If an assignment has a specified due date for credit, you must upload it by that time and be prepared to discuss it that day in class.

All graded/non-pass-fail assignments will be graded and discussed during synchronous one-on-one meetings with the instructor, who will help you understand

the areas of strength in your work, the areas of opportunity where you need work, and the revision strategies that will help you do better in the future. You may revise and resubmit any assignment.

- Participation in class (15%): if you are present and actively engaged in every class meeting, with up to 2 automatically excused absences, you will get full credit. 1 or more unexcused absences will reduce credit by half of a final letter grade. Email me **before you become absent/late**. Successful completion of the readings and reading study questions will also count towards your participation grade, and will constitute $\frac{1}{3}$ of the total 15%.
- Conspiracy theory refutation essay (10% Graded) 4 pages, 3 sources
- Wikipedia editing project (10% Graded) 10 sources
- Research question (5% Pass/Fail) 1 pages, 3 sources
- Formal research proposal (10% Pass/Fail) 3 pages, 5 sources
- Hybrid annotated bibliography (15% Graded) 5 pages, 15 sources
- Formal research paper (25% Graded) 15-20 pages, 15 sources
- Research poster/presentation (10% Graded)

As an Honors student, you will develop all your projects with an eye to advancing a community you are involved in, whether your academic community or some other community. **All your assignments will be developed with this goal in mind, and we will revisit this goal throughout prewriting, research, and writing. Each graded assignment will contain a short attached essay explaining how your project will directly benefit, support, or assist a community you are involved in, justifying the selection of topic and argument.**
