This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Class Schedule:

Day and Time: *Monday, Thursday: 1:00PM – 2:20 PM*

Room: *KUPF 207*

Delivery Mode: Face-to-Face (Delivery of instruction is structured around in-person classroom meeting times. Instruction is delivered in person and students are expected to attend class).

Instructor Information

Instructor: *Halina Opyrchal*

Office: Tier 410

Office Hour: *Wednesday: 2:30PM – 3:50 PM online <https://njit.webex.com/meet/opyrchalnjit.edu>*

Phone: *973-508 8635*

E-Mail: *opyrchal@njit.edu*

Webex Room: *<https://njit.webex.com/meet/opyrchalnjit.edu>*

General Information

- Description: Physics 103 is an algebra-based physics introductory college-level physics course in which students explore fluid statics and dynamics; thermodynamics; simple harmonic motion and waves; electrostatics; electrical circuits, reflection, mirrors, refraction, interference and diffraction. Through inquiry-based learning, students develop scientific critical thinking and reasoning skills.
- **Pre-requisites: Phys 102 with grade C or better**
- **Co-requisites: Phys 103A (the lab course) unless previously taken**

FAILURE TO MEET EITHER CO-Requisites or PRE-Requisites will result in student being dropped from class.

Learning outcomes: For this course you can expect to be assessed on the following learning outcomes:

1. Comprehend the meaning of equations governing the fluid at rest and fluid in motion. Understand the extension of conservation of energy and mass equations to fluid dynamics.
2. Define temperature scales.
3. Understand the phenomena of thermal expansion and Ideal Gas Law,
4. Understand the concept of heat and comprehend the meaning of equations governing the calorimetry and heat transfer.
5. Understand the basics concepts of thermodynamics.
6. Comprehend the meaning of equations governing oscillations and mechanical waves and apply those concepts to solve related problems.
7. Understand the concept of electric charge, electric field, electric potential, and electric current. Apply those concepts to solve simply circuits.
8. Understand the basic concepts of geometrical optics and learn how to apply them for mirrors, lenses and optical fibers.
9. Comprehend the wave theory of light and apply it to the phenomena of interference and diffraction.

Course material:

- **Textbook:** “Physics: Principles with Application, Seventh Edition by Douglas C. Giancolli, Prentice Hall, ISBN – 13: 978-0-321-62592-2
- **Mastering Physics Homework System:** Be sure that your textbook is sold bundled with a Mastering Physics student access code card. Each student must enroll in the course specified by his/her instructor. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system.

NOTE: THE LABORATORY COURSE, PHYS 103A, MUST BE TAKEN CONCURRENTLY WITH PHYS 103 THE STUDENT MUST REGISTER FOR BOTH THE LEC/REC AND THE LAB COURSE. WITHDRAWAL FROM EITHER COURSE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM BOTH COURSES.

Class attendance: The NJIT attendance policy is the following: “It is expected that students will attend all classes. Your teacher will take attendance at all classes and exams. More than 3 unexcused absences (in total) are excessive

Counseling and academic support: The Center for Counseling and Psychological Services is committed to assisting students experiencing high levels of personal challenge and stress. If you need accommodations due to a disability please contact Associate Director of Disability Support Services.

Help: Visit or email your instructors if you are having trouble with the course; do not simply hope for a miracle and fall further behind. The Physics Dept. office on the 4th floor of Tiernan has specific information on tutoring. Physics tutoring is available through the CAPE organization, and possibly elsewhere.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above. **Homework assignments will be posted on-line using the Mastering Physics Homework System. Please register for your section using login: www.masteringphysics.com.**

Course code to register to homework class: *opyrchal78483*

Grading: Final letter grades will be based on a **term average** for the semester’s work that includes the three common exam scores, the final exam, the homework score, and in-class quiz score.

Here are the approximate weights to be used for calculating term averages:

- **45%** for all three common exams (15% each)
- **30%** for the final exam
- **15%** for the total of homework work
- **10%** for the in-class participation (canvas quizzes)

The cutoff percentages for various letter grades will be:

Percentage	Letter Grade
$\geq 85\%$	A
$\geq 75\%$	B+
$\geq 65\%$	B
$\geq 56\%$	C+
$\geq 50\%$	C
$\geq 45\%$	D
< 45	F

Final grades are not negotiable: A score of 84.99% is a B+, not an A.

Examinations

There will be three Common Exams plus a comprehensive Final Exam. The schedule is:

- Common Exam 1: Wednesday, February 15, 2023; 4:15 -- 5:45 PM
- Common Exam 2: Wednesday, March 22, 2023; 4:15 -- 5:45 PM
- Common Exam 3: Wednesday, April 26, 2023; 4:15 -- 5:45 PM
- Comprehensive Final Exam TBA, 2.5 hours long

The final exam will emphasize the work covered after common exam 3, but also re-caps the whole course.

Note: Common Exams and Final Exam are all going to be Multiple-Choice questions. Students are going to submit exam questions and scantron cards to be collected at the end of each exam. There is not going to be any partial credit for multiple-choice questions, however students are required to show work to support their answers.

It is the student's responsibility to take the exam in the class that is scheduled.

In-class quizzes covering the preceding or current work may be given during lectures and/or recitations. Those scores count toward your final course grade. **There are no make-ups for in class activities.** Students missing a quiz will receive a grade of zero for that item.

Missed Exams

The general policy is that students who miss a common exam will receive a score of zero for that Exam. That score will be included in the calculation of your final grade. Students that miss two common exams automatically fail the course. Students who anticipate an absence from a common exam should discuss their situation with the Dean of Students PRIOR TO their absence. In order to be qualified to receive an "excused absence" for the common exam (a very rare occurrence), the student should present documentation for not being able to take the test as scheduled. As is the standard policy of NJIT, the student should present this document to the **Dean of Students - (973) 596-3466, Room 255 Campus Center** for evaluation. BOTH the Physics 121 instructor and Dean of Students must concur in permitting a "excused absence" for the common exam. Students who miss common exams that do not present documentation within 7 days of the common exam will receive a score of zero for the common exam.

In the event that the above qualification is met, a separate make-up test for the missed common quiz will not be offered. Instead, the final exam grade will be considered for giving a grade for the missed test. The

instructor will evaluate the final exam questions from those chapters and normalize this portion of the student's grade for the missed common exam.

Conflict common exams are usually held from 6:00 to 7:30 PM on exam days; contact Ms. Oertel (christine.a.oertel@njit.edu) for arrangements.

Honor Code Statement: NJIT has a zero-tolerance policy for cheating of any kind and for student behavior that disrupts learning by others. Violations will be reported to the Dean of Students. The penalties range from a minimum of failure in the course plus disciplinary probation up to expulsion from NJIT. Avoid situations where your own behavior could be misinterpreted as dishonorable. **Students are required to agree to the NJIT Honor Code on each exam, assignment, quiz, etc. for the course.**

Turn off all cellular phones, wireless devices, computers, and messaging devices of all kinds during classes and exams. Please do not eat, drink, or create noise in class that interferes with the work of other students or instructors. Creating noise or otherwise interfering with the work of the class will not be tolerated.

Physics 103 -004 Class Schedule for Spring 2023

	Topic	Text Study	Recommended Problems	LAB
Week 1 Jan.17 –Jan.23	Elasticity, Density and Pressure, Fluids at Rest	Chapt. 9 Sect. 5-6 Chapt.10 Sect. 1-7	p. 256 pr. 40, 45, 50 p. 285 pr. 2, 12, 14, 19, 23, 27, 34	Intro
Week 2 Jan. 24 – Jan.30	Fluids in Motion	Chapt. 10 Sect. 8-10	p. 285 pr. 47, 48, 49, 50, 53, 80	A
Week 3 Jan.31 – Feb. 06	Temperature, Thermal Expansion, The Ideal Gas Law	Chapt. 13 Sect. 1-8	p.385 pr. 5, 12, 15, 19, 24, 31, 39, 78	7
Week 4 Feb. 07 – Feb. 13	Specific Heat, Calorimetry, Latent Heat,	Chapt. 14 Sect. 1-5	p.408 pr. 2, 13, 14, 25, 27, 34	D
Week 5 Feb. 14 – Feb. 20	Transfer of Heat	Chapt. 14 Sect. 6 - 8	p.408 pr. 38, 42, 43, 54	E
Week 6 Feb. 21 – Feb. 27	Thermodynamics	Chapt. 15 Sect. 1-7	p. 438 pr. 1, 18, 19, 24, 32	F
Week 7 Feb. 28 – March 06	Simple Harmonic Motion, Waves, Standing Waves	Chapt. 11 Sect. 1-12	p. 322 pr. 3, 7, 8, 14,18, 27, 36, 37, 40, 49, 52	G
Week 8 March 07–March 10	Sound	Chapt. 12 Sect.1-7	p. 354 pr. 3, 4, 9, 14, 27, 28, 56, 63	BI
Week 9 March 11 – March19	SPRING RECESS			
Week 10 March20 –March 27	Electric Charges, Electric Field, Electric Potential	Chapt.16 Sect.1-5, 7 Chapt. 17 Sect. 1-2	p. 468 pr. 2, 3, 19, 21 p. 496 prob. 3, 4, 6, 9	W

Week 11 March 28– April 03	Electric Current, Resistance, Electric Power	Chapt.18 Sect. 1-7	p.521 pr.1, 9, 13, 17, 28, 37, 47, 54	J
Week 12 April 04 – April 10	Electric Circuits	Chapt.19 Sect.1- 5, 7	p. 552 pr. 1, 4, 12, 15, 16, 77	H
Week 13 April 11 – April 17	Light: Reflection, Mirrors, Refraction	Chapt. 22 Sect. 3-4 Chapt. 23 Sect. 1-3	p. 673 pr. 4, 9, 12, 25, 26, 28, 29, 72	215
Week 14 April 18 – April 24	Light: Total Internal Reflection, Lenses	Chapt. 23 Sect. 4-8	p. 673 pr. 35, 36, 41, 43, 47, 48	M
Week 15 April 25 – May 02	Interference, Diffraction Grating, Resolution	Chapt. 24 Sect. 1, 3, 4, 6 Chapt. 25 Sect. 7-9	p. 707 pr. 4, 7, 33, 38, p. 740 pr. 53, 55, 67, 83	

Spring 2023 Academic Calendar

January 16 Monday, Martin Luther King, Jr. Day

January 17 Tuesday, First Day of Classes

January 21 Saturday, Saturday Classes Begin

January 23 Monday, Last Day to Add/Drop a Class

January 23 Monday, Last Day for 100% Refund, Full or Partial Withdrawal

January 30 Monday, Last Day for 90% Refund, Full or Partial Withdrawal, No Refund for Partial Withdrawal after this date

February 13 Monday, Last Day for 50% Refund, Full Withdrawal

March 6 Monday, Last Day for 25% Refund, Full Withdrawal

March 13 Monday, Spring Recess Begins - No Classes Scheduled - University Open

March 18 Saturday Spring Recess Ends

April 3 Monday, Last Day to Withdraw

April 7 Friday, Good Friday - No Classes Scheduled - University Closed

April 9 Sunday, Easter Sunday - No Classes Scheduled - University Closed

May 2 Tuesday, **Friday Classes Meet**

May 2 Tuesday, Last Day of Classes

May 3 Wednesday, Reading Day 1

May 4 Thursday, Reading Day 2

May 5 Friday, Final Exams Begin

May 11 Thursday, Final Exams End

May 13 Saturday, Final Grades Due
