This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

| INSTRUCTOR | Name: TBA, E-mail: TBA | | |
|---------------|--|--|--|
| OFFICE HOURS | Hours and Location: TBA | | |
| ТЕХТВООК | Physics 121A Laboratory Manual 11 th Edition, sold by NJIT bookstore | | |
| DESCRIPTION | This physics II laboratory course involves experiments which demonstrate the principles of electricity and magnetism including simple dc circuits, electric field, electric potential, magnetic field, and inductance. | | |
| NOTE | To take the laboratory course, PHYS 121A, a student must concurrently take the lecture course, PHYS 121 unless the student passed the lecture course previously. Withdrawal from LAB requires withdrawal from the LEC. | | |
| HELP | Visit or email your instructor if you are having trouble with the lab course. If you need an accommodation due to a disability, please contact Scott Janz (scott.p.janz@njit.edu 973-596-5417), Associate Director of the Office of Accessibility Resources and Services, Kupfrian Hall 201 to discuss your specific needs. | | |
| GENERAL | - There is no exam in the lab course. | | |
| INFORMATION | - No make-up for missing labs is allowed. | | |
| | - Grading (A through D and F) is based on attendance, participation, and lab report. | | |
| | - Experiments are a group effort. | | |
| | - Laboratory reports should be individual ones submitted by each student. | | |
| | - Lab computer login method: Username: your UCID and Password: your UCID password | | |
| | - NJIT physics lab website: https://centers.njit.edu/introphysics/welcome/ | | |
| DELIVERY MODE | Face-to-Face: Delivery of instruction is structured around in-person classroom meeting times. Instruction is delivered in | | |
| | person and students are expected to attend class. | | |
| LEARNING | - Students will master basic physics concepts by performing an experiment relevant to corresponding | | |
| OBJECTIVES | course work. | | |
| | - Students will gain hands-on experience with experimental processes and develop effective written communication skills. | | |
| | - Students should develop collaborative learning skills by working in a group. | | |
| LEARNING | - Students will demonstrate basic experimental skills by practicing setting up and conducting an | | |
| OUTCOMES | experiment. | | |
| | - Students will demonstrate an understanding of the analytical methods required to interpret and analyze results and draw conclusions as supported by their data. | | |
| | - Students will demonstrate basic communication skills by working in groups on laboratory experiments | | |
| | and the thoughtful discussion and interpretation of data. | | |
| ATTENDANCE | - Attendance policy is very strict. It is a student's responsibility to confirm his/her attendance with the Lab instructor. | | |
| | - It is required for students to attend all lab experiments since grading is based on attendance, | | |
| | participation, and lab report. | | |
| | - It is required for a student to sign the attendance sheet in every lab class. If a student fails to sign it, it is | | |
| | treated as being absent. | | |
| | - Attendance will be checked in the beginning and middle of each class by your instructor. | | |
| | - If a student does not appeal and resolve his/her attendance within 7 days, no further complaint will be | | |
| | accepted. | | |
| | - If a student makes more than 3 unexcused absences, the student is very likely to fail the lab course. | | |
| | - If a student has excusable absences, the student should contact the Office of the Dean of Students to | | |
| | email an official excuse to his/her lab instructor. | | |
| | - Students can check their Attendance and Participation grade by appointment with the TA | | |
| | - There might be a camera recording by a lab instructor for attendance and participation (It is required for the students to sign a waiver acknowledging that they are being recorded). | | |
| | the statents to sign a waiver acknowledging that they are being recorded). | | |

| GRADING | The grading guidelines are as follows: | | |
|---------------|---|--|--|
| POLICY | Attendance (20%); Participation (20%); Laboratory Report (60%) | | |
| 1 02/01 | 2. A grade of zero (0) will be given for any missed experiment with no excuse. | | |
| | 3. Submission of the lab report is due the following week class begins – penalty for lateness is 10 % per | | |
| | day. | | |
| | 4. Laboratory Report Grading (points): | | |
| | Style; font type, font size, line space, margin, etc. given by your lab instructor (10) Title (5) | | |
| | Introduction including Objective and Theoretical Background (10) Experimental Procedure (10) | | |
| | - Results: Experimental Data (15) and Calculation (15) | | |
| | - Discussion and analysis of results; Answers to questions (20) | | |
| | - Conclusions (10) | | |
| | - Raw Data Sheet (5); unless otherwise instructed, raw data sheets (or photocopies of raw data) | | |
| | should be attached to the lab report. The raw data should be checked and signed by your instructor at the completion of the lab experiment. | | |
| GRADING SCALE | 90 - 100 % = A, 85 - 89 % = B+, 80 - 84 % = B, 75 - 79 % = C+, 65 - 74 % = C, 50 - 64 % = D, 0 - 49 % = F | | |

LAB COURSE SCHEDULE

| Week | Period | Experiment |
|-------|---------------------|--|
| 1* | 9/3(T) - 9/9(M) | Introduction, Error Analysis, MATLAB I |
| 2 | 9/10(T) - 9/16(M) | MATLAB I (CON'T) and MATLAB II |
| 3 | 9/17(T) - 9/23(M) | Lab 200: Electric Charge and Force |
| 4 | 9/24(T) - 9/30(M) | Lab 201: Electric Field by Point Charges |
| 5 | 10/1(T) - 10/7(M) | Lab 202: Numerical Verification of Gauss's Law |
| 6 | 10/8(T) - 10/14(M) | Lab 203: Electric Potential and Electric Field |
| 7 | 10/15(T) - 10/21(M) | Lab 205: Parallel Plate Capacitor |
| 8 | 10/22(T) - 10/28(M) | Lab 215: Ohm's Law – Current, Voltage, and Resistance Measurements |
| 9 | 10/29(T) - 11/4(M) | Lab 217: RC Circuits |
| 10** | 11/5(T) - 11/11(M) | Lab 212: Measurement of <i>e/m</i> for an Electron |
| 11 | 11/12(T) - 11/18(M) | Lab 210: Magnetic Field of Helmholtz Coil |
| 12 | 11/19(T) - 11/25(M) | Lab 223: Faraday's Law |
| 13*** | 11/26(T) - 12/4(W) | Lab 218: RL Circuits |
| 14 | 12/5(R) - 12/11(W) | Lab 221: LC Circuits |

- * 9/9 (Mon.) Last Day to add/drop a class
- ** 11/11 (Mon) Last Day to Withdraw from Classes
- *** 11/26 (Tue) Thursday classes meet
- *** 11/27 (Wed) Friday classes meet
- *** 11/28 (Thurs.) and 11/29 (Fri.) Thanksgiving Recess Begins. No classes

Physics Laboratory Safety

- 1. Food and drink are not permitted during class in the lab at any time.
- 2. Wear safety glasses all the time during lab experiments.
- 3. Do not come into the lab room early unless the instructor is present.
- 4. Do not wear loose hair or clothing around moving equipment.
- 5. Do not set equipment too close to the edge of the table.
- 6. Do not activate any electric circuit or apparatus until the instructor inspects it.
- 7. Never touch a possibly live circuit and do not touch electrical equipment with wet hands.
- 8. Only use laboratory equipment for the instructional purpose for which it was intended.
- 9. Never look directly at the beam of a laser and light from a lamp used for experiment.
- 10. All trash and waste materials should be disposed of in the proper container. Do not pour chemicals into the laboratory sink.

- 11. Do not shorten the electrical leads on any equipment.
- 12. Any equipment except computers not in use should be turned off.
- 13. Do not take apart any apparatus or piece of equipment.
- 14. All damaged equipment and chemical spills should be immediately reported to a laboratory instructor or laboratory staff.
- 15. Accidents and emergencies must be immediately reported to the laboratory instructor. (NJIT Emergency call number: 911)
- 16. Be aware that fire extinguishers are in Rooms 406T and 407T.
